

Seeing Through Deception

 **Green Level: I Want More Support**

Name: _____ Date: _____ Period: _____

The SIFT Method

Professional fact-checkers use these four steps to verify information. You can too!

S STOP — Pause before you react or share

I INVESTIGATE — Who created this? What's their reputation?

F FIND — Can you find this claim covered elsewhere?

T TRACE — Where did this information originally come from?

Practice: Evaluate This Source

Source: A social media post says "Scientists announce chocolate cures all diseases!" with a link to a website called "HealthNewsToday.net" you've never heard of.

S - STOP: What's your first reaction? Write it, then pause.

I - INVESTIGATE: What would you search to learn about this source?

F - FIND: Where could you look for other coverage of this claim?

T - TRACE: What original source would need to exist for this to be true?

Your verdict: Reliable / Unreliable / Need More Info

Seeing Through Deception

 Green Level

Practice: Evaluate Another Source

Source: An article from your local newspaper's website about a new school policy, with the reporter's name and contact information included.

S - STOP: What's your first reaction?

I - INVESTIGATE: What do you know about this source?

F - FIND: Could you verify this elsewhere?

Your verdict: Reliable / Unreliable / Need More Info

Mini Museum Connection

Spirit photographers in the 1860s exploited people who didn't know photos could be faked. Today, many don't know videos can be faked (deepfakes). The lesson: always verify before you trust!
