

Spotting Propaganda

 Yellow Level: I'm Ready for a Challenge

Name: _____ Date: _____ Period: _____

Propaganda Through History

From ancient Rome to modern social media, those in power have used images to shape public opinion. Understanding propaganda techniques helps you recognize when someone is trying to manipulate you—and make your own informed decisions.

The Six Techniques

Technique	How It Works
Bandwagon	Appeals to desire to belong; "everyone is doing it"
Fear	Creates anxiety about consequences; threatens harm
Name-Calling	Uses negative labels to create prejudice against enemies
Glittering Generalities	Vague positive words (freedom, honor) without substance
Transfer	Connects cause to respected symbols (flags, religion, family)
Testimonial	Uses trusted figures to endorse message

Analyze Two Propaganda Images

IMAGE 1: _____

Time period/country: _____

Technique(s) used: _____

Intended emotion: _____

Desired action: _____

IMAGE 2: _____

Time period/country: _____

Technique(s) used: _____

Intended emotion: _____

Desired action: _____

Spotting Propaganda

Yellow Level

Think Deeper

Photo manipulation vs. posters: The Soviet government erased people from photographs after they were executed. Why is altering a photograph more dangerous than creating an obviously persuasive poster?

Compare the Two Images

What do both images have in common?

What's different about how they try to persuade?

Which do you think was more effective? Why?

Mini Museum Connection

Spirit photography was propaganda that exploited grief. The stereoscope's "realistic" 3D images made Victorians trust visual "evidence."

How does our trust in realistic images make us more vulnerable to manipulation today?
