Don't be fooled! Just like optical illusions trick your eyes, fake information can trick your brain. Use these three steps to protect yourself!

01 PART 1

STOP — CHECK — ASK

1 STOP

Before you believe it or share it, PAUSE! Don't let excitement make you rush.

2 CHECK

Look for clues: Who wrote it? Where did it come from? Can you find it somewhere else?

3 ASK

If you're not sure, ask a librarian, teacher, or parent!

02

PART 2

Practice!

Read each headline. Circle **TRUST** or **CHECK MORE**:

“Scientists Say Kids Should Eat Ice Cream for Every Meal!”

TRUST or CHECK MORE

“Local Library Hosting Summer Reading Program” — from your school newsletter

TRUST or CHECK MORE

“You Won’t BELIEVE What This Dog Can Do!!!” — no author, random website

MINI MUSEUM CONNECTION

In the 1860s, fake “ghost photographs” tricked thousands of people! They didn’t know pictures could be faked.

Now YOU know better — always STOP-CHECK-ASK!

PART 3

My Information Detective Pledge

I promise to:

- [ ] **STOP** before I believe or share something surprising
- [ ] **CHECK** who wrote it and where it came from
- [ ] **ASK** a trusted adult if I’m not sure
