NAME _____ DATE _____ CLASS _____

The Harlem Renaissance produced extraordinary work — but it happened against a backdrop of systemic injustice. Understanding why the Renaissance matters requires understanding both what was created and what it was created in response to.

01

PART 1

Source analysis

Find one **primary source** (a poem, story, or image by a Harlem Renaissance artist) and one **secondary source** (a book about the Harlem Renaissance) in the library:

Primary: _____ **Secondary:** _____

What can each source tell you that the other cannot?

02

PART 2

Build an argument

Using evidence from your sources, write a 5-sentence paragraph arguing: Was the Harlem Renaissance primarily a **cultural achievement**, a **political act**, or **both**? Include a claim, at least two pieces of evidence, and a conclusion.

03

PART 3

The library's role

Name one resource in this library that connects directly to the Harlem Renaissance. How would you help a younger student find it?
